Special regulations for authors—Upon acceptance of an article by the journal, the author(s) will be asked to transfer copyright of the article to the Publisher. This transfer will ensure the widest possible dissemination of information.

Special regulations for readers in the USA—This journal has been registered with the Copyright Clearance Center, Inc. Consent is given for copying of articles for personal or internal use, or for the personal use of specific clients. This consent is given on the condition that the copier pays through the Center the per-copy fee stated in the code on the first page of each article for copying beyond that permitted by Sections 107 or 108 of the US Copyright Law. The appropriate fee should be forwarded with a copy of the first page of the article to the Copyright Clearance Center, Inc., 222 Rosewood Drive, Danvers, MA 01923, USA. If no code appears in an article, the author has not given broad consent to copy and permission to copy must be obtained directly from the author. The fee indicated on the first page of an article in this issue will apply retroactively to all articles published in the journal, regardless of the year of publication. This consent does not extend to other kinds of copying such as for general distribution, resale, advertising and promotion purposes, or for creating new collective works. Special written permission must be obtained from the Publisher for such copying.

No responsibility is assumed by the Publisher for any injury and/or damage to persons or property as a matter of products liability, negligence or otherwise, or from any use or operation of any methods, products, instructions or ideas contained in the material herein.

Although all advertising material is expected to conform to ethical standards, inclusion in this publication does not constitute a guarantee or endorsement of the quality or value of such product or of the claims made of it by its manufacturer.

Scope of the Journal

The aim of this journal is to bring together research papers in different areas of algorithmic and applicable discrete mathematics, as well as applications of combinatorial mathematics to computer science, OR and various areas of science and technology.

Contributions presented to the journal can be research papers, short notes, surveys, and possibly research problems. The "Communications" section will be devoted to the fastest possible publication of the brief outlines of recent research results, the detailed presentation of which might be submitted for possible publication in DAM or elsewhere. The journal will also publish a limited number of book announcements, as well as proceedings of conferences.

Instructions to Authors

All contributions should be written in English or French, should have an abstract in English (as well as one in French if the paper is written in French) and – with the exception of Communications – should be sent in triplicate to Nelly Segal, Editorial Manager, RUTCOR – Rutgers Center for Operations Research, Rutgers University, P.O. Box 5062, New Brunswick, NJ 08903-5062, USA. The authors are requested to put their mailing address on the manuscript.

Upon acceptance of an article, the author(s) will be asked to transfer copyright of the article to the Publisher. This transfer will ensure the widest possible dissemination of information.

Detailed instructions can be found in the backmatter of each last issue of a volume. (See also <http://www.elsevier.nl/locate/dam>)

Instructions for LaTeX manuscripts

The LaTeX files of papers that have been accepted for publication may be sent to the Publisher by e-mail or on a diskette (3.5" or 5.25" MS-DOS). If the file is suitable, proofs will be produced without rekeying the text. The article should be encoded in Elsevier-LaTeX, standard LaTeX, or AMS-LaTeX (in document style 'article'). The Elsevier-LaTeX package, together with instructions on how to prepare a file, is available from the Publisher. This package can also be obtained through the Elsevier WWW home page (<http://www.elsevier.nl/>), or using anonymous FTP from the Comprehensive TeX Archive Network (CTAN). The host-names are: <ftp.dante.de>, <ftp.tex.ac.uk>, <ftp.shsu.edu>; the directory is: `tex-archive/macros/latex/contrib/supported/elsevier`. *No changes from the accepted version are permissible, without the explicit approval by the Editor. The Publisher reserves the right to decide whether to use the author's file or not.* If the file is sent by e-mail, the name of the journal, *Discrete Applied Mathematics*, should be mentioned in the 'subject field' of the message to identify the paper. Authors should include an ASCII table (available from the Publisher) in their files to enable the detection of transmission errors.

The files should be mailed to: Log-in Department, Elsevier Science B.V., P.O. Box 2759, 1000 CT Amsterdam, Netherlands. E-mail: m.griffin@elsevier.nl.

Subscription Information

Discrete Applied Mathematics (ISSN 0166-218X). For 1998 Volumes 80–88 are scheduled for publication. A combined subscription to Discrete Applied Mathematics and Discrete Mathematics (Vols. 178–193) at reduced rate is available. Subscription prices are available upon request from the publisher. Subscriptions are accepted on a prepaid basis only and are entered on a calendar year basis. Issues are sent by surface mail except to the following countries where air delivery via SAL is ensured: Argentina, Australia, Brazil, Canada, Hong Kong, India, Israel, Japan, Malaysia, Mexico, New Zealand, Pakistan, PR China, Singapore, South Africa, South Korea, Taiwan, Thailand, USA. For all other countries airmail rates are available upon request.

Claims for missing issues must be made within six months of our publication (mailing) date.

For orders, claims, product enquiries (no manuscript enquiries) please contact the Customer Support Department at the Regional Sales Office nearest to you:

Authors' benefits

1. 50 reprints per contribution free of charge.
2. 30% discount on all Elsevier Science books.

US mailing notice – *Discrete Applied Mathematics* (0166-218X) is published semi-monthly by Elsevier Science B.V., Customer Support Department, P.O. Box 211, 1000 AE Amsterdam, The Netherlands, Fax: +31 20 4853432. Annual subscription price in the USA US\$ 1732.00 (US\$ price valid in North, Central and South America only), including air speed delivery. Periodicals postage paid at Jamaica, NY 11431.

USA POSTMASTERS: Send address changes to Discrete Applied Mathematics, Publication Expediting, Inc., 200 Meacham Avenue, Elmont, NY 11003. Air freight and mailing in the USA by Publication Expediting.
